

MGPI (Synodys Group)

Site location: France
 Implementation type: MES (discrete, project)
 Statim users: 20
 Customer web site: <http://www.mgpi.com>

MGPI is leader in Radiation Monitoring Systems and Operational Dosimetry, MGP Instruments also specializes in Surface Contamination Monitoring and Management Systems against Nuclear, Biological, Chemical threats.

--> Business Situation

- Lack of production visibility
- Paper based data collection
- Manual data entry to Baan

--> Solution

Statim®

- On-line data validation
- Mobile RF terminals integration
- Integration with Baan
- 24 x 7 availability (works with or without ERP connection)
- Delivers superior performance
- Simplifies complex work processes

Statim® Manufacturing Module

- Detailed labor reporting
- Against production order and operation (direct work)
- Non-production order related (indirect work)
- Real-time, detailed production orders monitoring

Statim® Alert Management

- Pro-active system administration
- Automatic e-mail notifications of system events occurrences

Statim® Baan Connector

- On-line and automatic integration with Baan
- Utilizing Baan Tools Exchange

--> Benefits

- Greater visibility of production
- Higher productivity levels
- Improved data accuracy

--> Implementation

Solution was successfully implemented by V-Ingenierie (<http://www.v-ingenierie.fr/>). The three-month implementation process met its roll out schedule with a "go live".
